EXPERIENCE

Full Stack Engineer — *Universa Analytics | FinTech* Dec 2025 – Present

- Architected a real-time stock analytics dashboard with WebSocket-based data streaming, achieving sub-second UI updates for live market data.
- Reduced page load **11s → 3s (73%)** via web workers, code splitting, memoization & lazy loading, directly improving Core Web Vitals.
- Integrated an **Agentic AI chatbot** with the ML team, enabling conversational data-query UX.
- Built a **PDF templating engine** — admins create overlay templates, apply to uploads, and auto-deliver signed copies to all parties.

Software Engineer — *Aeria | PropTech* July 2023 – Nov 2025

- Published React Native apps to Google Play Store & multiple Web applications with **65k+ DAU** (daily active users).
- Built mission-critical mobile features: **OCR scanner**, **real-time geolocation**, **accelerometer**, and **push notifications**.
- Developed and maintained an **Event Management microservice** handling on-site & third-party events.
- Integrated **Razorpay & Paytm** payment gateways across Next.js web and React Native platforms.
- Improved API performance by 60% using **database indexing**, **Redis caching**, **pagination**, and **batch requests**.
- Conducted **technical interviews** and **mentored 5+ engineers**, improving onboarding velocity and code quality.

Software Engineer (Intern) — *Squareboat | Service-based Agency* Jan 2023 – Jun 2023

- Developed accessible, high-performance UI flows for **SBI Cards** — State Bank of India's digital banking product.
- Delivered **10+ production projects** for global and domestic clients with responsive, user-centric interfaces.
- Built a **30+ component library** using FTD for the FifthTry platform, significantly cutting cross-team dev time.
- Set up Sentry production monitoring, enabling proactive issue detection and faster incident response.

PROJECTS

POS System

Full-stack point-of-sale for event-driven order processing, inventory management, and real-time reporting. Tech: Next.js, WebSocket, Nest.js, Redis, MongoDB, Kafka.

Chat App

Chat application with private/group chats, media upload, chat history, online presence, and notifications. Tech: Next.js, WebSocket, Node.js, Redis, MongoDB, AWS.

Automated Video Recorder

Built after finding no existing tool to record scrolling website demos — accepts a URL queue, lets users configure scroll speed & behavior, supports mid-recording stop, and auto-delivers a recorded video per site. Tech: Next.js, Playwright.

OPEN SOURCE

Contributed to FifthTry and FOSSASIA — enhancing features, fixing bugs, and collaborating in open code review cycles.

EDUCATION

B.Tech. in Computer Science and Engineering — Gautam Buddha University | CGPA: 8.68
